

Report File Layout-
Exceeding Clocks with Aid Code

	Data Length	Data Type	Definition	Rule
File Header				
Transaction Code	4	A/N	Unique code that identifies the file Header section of the report file.	Valid value: 'RP06'
County Code	2	A/N	Unique county code that identifies the county receiving the file.	Valid value: Please see the TRAC Reference Codes (Table: County Code, Field: County Code)
Creation Date	8	Date	Indicates the date the file was created.	Valid Format: MMDDYYYY
Creation Time	6	Time	Indicates the time the file was created.	Valid Format: HHMMSS
Filler	5	A/N		
Report Detail				
			These fields will contain data on individual recipients who have exceeded the limits of their time clocks.	All individual records that appear on this report have exceeded at least one of the time clock limits.
CIN	9	A	The Client Index Number (CIN) is the primary key of the TRAC application. The number is supplied from the data created in the Statewide Client Index (SCI).	This report will include only active CINs. A CIN may appear more than once; the recipient may have received aid under different aid codes.
COUNTY-ID	10	A	The County ID is the unique way the county systems who do not use CIN identify individuals. This field is the concatenation of several fields in the database.	Case Serial Number (7 characters) + FBU MEDS Code (1 character) + Person Number (2 characters)
AID CODE	2	CHAR	The two digit character represents the aid code. The report will exclude aid code 32 or 3W at the report production month.	Identifies the aid code the recipient was on at the report production month.
TANF60-END-MTH	7	DATE	The date the TANF 60-month clock reached 60.	Rule: If the designated clock has not been exceeded, this field will be left blank. Valid Format: MM/YYYY
CAL60-END-MTH	7	DATE	The date the CalWORKs 60-month clock reached 60.	Rule: If the designated clock has not been exceeded, this field will be left blank. Valid Format: MM/YYYY. Note: A CalWORKs time limit will not displayed for recipient who are on extenders and whose not CalWORKs net months (CalWORKs months less extender months) is equal or less than 60 months.
